Dan McCreary,

Thank you for taking the time to read my email, the Brantford Tax Project was started in 2018, the mission is available to read on the website.

I do appreciate your friend request on the Facebook social media platform, I hope that by accepting your request it will provide a better means of open communication and understanding.

That being said, I am not a Canadian citizen or British Subject or constituent of your office, it is difficult for me or those in a similar condition to acquire certain documents under Canadian provincial legislation, as the FOIR does require a tribute under its articles.

You suggested that I request the information I mentioned in our conversation, that being the Lands Claims Committee lead by former Mayor Bob Taylor circa 1994.

The committee was written about in the Brantford Expositor, I am attaching the clipping.

How was the figure derived at \$250 Billion, or that 80% of Brantford is under land claims?

Can you provide a map of the 20% of Brantford not under lands claims?

How much is the 20% valued in comparison to the 80% under lands claims?

Does the city have an obligation to disclose this known risk to the potential buyers? For example the Steve Charest fiasco regarding Oak Park Road.

Can the City transfer this known risk legally without disclosing the underlying interests?

Does the lands claims alter the perceived values of the lands?

Is the lands more valuable without the above mentioned risks?

I read in the court case resulting from the Oak Park road lawsuit that because the city and realtors failed to inform the potential purchasers of these risks the purchasers are then legally defined as "Innocent third party Purchasers" which basically a stranger who has something by a wrong. However if you have knowledge of these risks at the time of sale the innocence is removed.

Does the city have an obligation to disclose these known risks to any potential property buyer? I remember watching the council wherein the By-Law Chris Friel stalled in signing that dealt with the cities interes in the lands, I do not have that By-Law number but the council later agreed not to conduct an investigation into the reason for the three week delay.

How does that By-Law effect these potential buyers before and after the signing, and did the cities obligation to inform the potential buyers change?

I look forward to your reply, thanks again Dan.

Benjamin Doolittle UE.

Heidi,

Just to limit any confusion you may have about the *capacity* I am writing from in regard to the request for information sent to Dan McCreary with the subject header, "Re: Lands Claims

Committee c.1994". I have attached the Press Release for the Brantford Tax Project entitled "Press_Release_Brantfordtax.pdf".

Brantford Tax Project mission is a national liberation movement protected under international law. If you need further assistance please let me know. I can send you our collection of UN Resolutions and international artifacts as you may not be familiar with them.

The entire body of the Press Release is included below, the press release was published in the local newspaper.

Brantford Tax Project Takes Up the Cause of Mohawk Nation's Liberation FOR IMMEDIATE RELEASE

(July 22, 2018) — The Six Nations Indians or Mohawks in Brantford, Ontario, have a new mission to defend their tax rights and culture. The Brantford Tax Project est. 2018 has been set up to seek liberation of real property in Brantford, convert it into liberated and independent holdings and end the tyranny of Brantford's authorities and their claims against the Mohawk nation.

Brantford is well known to the Mohawks as having usurped their rights, apart from treating the Canadian Sovereign with contempt. This goes against what Frank Oliver had once said in 1914 in the House of Commons that shows Mohawk and British allyship: "But there are bands of the Six Nations Indians located on the Grand River in Ontario who, I maintain, are in a different legal position from any other Indian bands who are native to the country..."

The Brantford Tax Project aims to be a National Liberation Movement, work towards liberating the Mohawk property from municipal property taxation, and define it as repatriated holdings, which will fall only under the Mohawk jurisdiction as extra-territorial lands outside the jurisdiction of Canada. This diplomatic solution will address the current lack of political and judicial will of the Canadian government to correct the menace of the local government against Mohawk sovereignty.

Among its activities, the Brantford Tax Project 2018 will carry out practical exercises so that the Brantford authorities provide evidence of how property tax and levies are lawfully applied to the Mohawk people. It will evaluate the evidence, so that total liabilities and interests can be determined, apart from the verified obligations of the Mohawk people.

The Brantford Tax Project is being documented by Benjamin Doolittle (nom de guerre), a fraternal member of the Sha'tekari:wate; one of nine sub-clans of the Kanien'kehá:ka (Mohawk) Confederacy. Benjamin Doolittle is the current Occupant of the Office of President of the Haudenosaunee & Raseron:ni Neighbourhood Association of Brantford and Founder of the One-Flint Free Society.

"Tax revenues are the lifeblood of the municipality, which must NOT come from the veins of the Mohawk!" says Benjamin Doolittle.

The Brantford Tax Project will also work towards providing safe and affordable housing to Mohawk families. It will help connect people with accessible programs that support the Mohawk way of life, and will engage public at large to promote the issues of Mohawk liberties. It will also create and support a community in and out of Brantford for everyone to feel safe, loved and respected, as well as work as a learning organization that will match pace with the changing needs of the Mohawk Nation through promoting trade, investment, tourism and consular services to Mohawks abroad.

Benjamin –

Thank you for your inquiry. This is to advise that all requests for documentation and information of this nature from the City of Brantford should be made through the Freedom of Information process established pursuant to provincial law.

Information on this process can be found on the City of Brantford's website, which I am providing below for your ease of reference.

<https://www.brantford.ca/en/your-government/freedom-of-information.aspx>

Please note that the City of Brantford's Legal & Real Estate Services Department does not provide advice to members of the public, therefore, we will not be providing you with a response to the various questions you posed below pertaining, *inter alia*, to potential disclosure requirements, etc. with respect to the sale of land.

Regards,

Heidi F. de Vries

City Solicitor | Director of Legal & Real Estate Services

Thank you, I appreciate your position in regard to this matter. Please give due consideration where its is due, that is all I can ask.

You may have overlooked our ability to acquire the documents under the current legislation, ...
"That being said, I am not a Canadian citizen or British Subject or constituent of your office, it is difficult for me or those in a similar condition to acquire certain documents under Canadian provincial legislation, as the FOIR does require a tribute under its articles."

The fact that I would have to make a tribute without proper conditions and acknowledgements we find is an undue burden, I am including MP for Brant, Phil McColeman in this matter, as the Canadian and Provincial Governments do have a role in resolving this issue. Perhaps they will be willing to make the request for us as a matter of expediency, I am also forwarding this email to the Attorney General's office for their records, and as a point of reference.

Because of the City's proximity to these issues, that, we view their administration of any form of resolution, including taxation is a direct conflict of interest. Without disclosing the information relevant to the question we have asked it places our potential buyers in harm's way, We dont believe that these answers to these questions are confidential nor should be allowed to be

held hostage under the alleged process, these are questions any innocent buyer would be legally entitled to ask before any conveyance of property as full disclosure.

In the past I have informed the council of my desire to buy property from their inventory, I was not given any information. However It would be good to get have myself begin a purchasing process so that we would have a more tangible and practical way to understand these complexities and perhaps these questions answer themselves.

Benjamin –

As a creature of the Province, the City is required to follow the legislation set by Ontario with respect to Freedom of Information and Protection of Privacy.

All the best with your efforts to seek legislative amendments from the Provincial Legislature with respect to the concerns you raise below.

Additionally, given your interest in purchasing land from the City, you may wish to look to the City's website for information relating to such sales, as well as to advertisements in the local paper. When the City disposes of land, we do so in an open and transparent manner and give due consideration to all offers.

Caveat, emptor!

Regards,

Heidi F. de Vries
